If a tie still exists, the tie will be broke by determining the team who won the most games during head-to-head competition. If a tie still exists, the tie will be broke by determining the team who scored the most points during head-to-head competition. If there continues to be a tie, the tie will be broke by using the previous stated criteria with head-to-head competition versus the highest remaining seed. The final step will continue until the tie is broke.

Note: The home team during playoffs is determined in the following manner:

 - The highest seed is the home team throughout the winner's bracket of playoffs
 - In the losers bracket, the home team is determined by flipping a coin
